

Riverside Insights K-12 Professional Learning

Support before you test.
Guidance after you test.
Results every step of the way.

Riverside Insights Professional Learning is designed to support your team across the full assessment lifecycle. Before testing, we provide onboarding, logistics, and training to help staff administer assessments with confidence. After testing, we help educators make sense of the data and transform it into instructional action that supports student growth.

Flexible by design, our offerings include asynchronous support, live virtual sessions, onsite options, and fully customized consulting so districts can choose the level of support that best fits their goals, timeline, and budget.

**“From the day before
you test to the day
you begin using your
results, our experts
are here for you.”**

Professional Learning 101: Prepare to Assess

Before testing begins, Riverside Insights helps your team build confidence with the tools, systems, and knowledge needed to launch a successful assessment experience. These offerings are ideal for onboarding new teams, preparing proctors and administrators, supporting report access, and ensuring everyone knows what to expect before testing starts.

	Offering	RTA Subscription
	Modality	Asynchronous / on-demand
	Time Commitment	Annual subscription with year-round access

Description: Access our Learning Management System with on-demand resources, 1:1 CTE support, and guidance on understanding report data. Includes a 5-user annual subscription for:

CogAT®, *Iowa Assessments™*, *Logramos®*, and *easyCBM®*.

	Time Commitment	1 live session with recording for ongoing access

Description: Enhance your Training Hub with customized courses built around your district’s training needs. Live webinar sessions can be included, with recordings added to the Training Hub for ongoing staff access.

Best for: Teams that want custom live support plus a lasting, on-demand resource for staff.

“

“The on-demand training modules were highly convenient and allowed me to learn at my own pace, fitting perfectly into my busy schedule. The custom webinars provided tailored content specific to our needs, while the onsite training sessions, led by our team and supported online by Riverside team, offered hands-on experience and direct interaction, significantly enhancing our teacher’s skills and productivity. Teachers greatly appreciated the handouts created and provided by Riverside during the training.”
