

ESGI

Easy Assessment and Data Tracking for Foundational Skills

Real-time data

that transforms learning

Empower your teachers with ongoing assessment and data tracking towards foundational mastery.

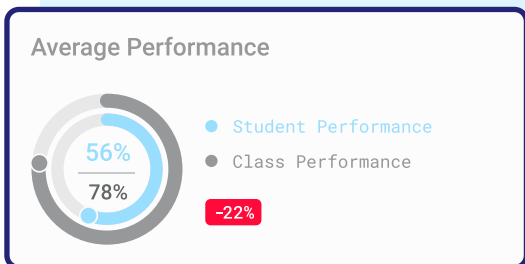

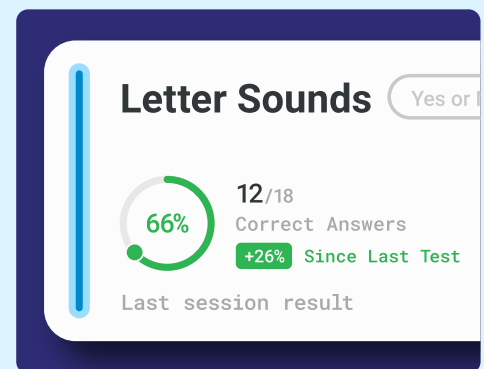

ESGI is the only progress monitoring system designed to support Pre-K through 2nd Grade foundational skills development. Teachers seamlessly collect, track, and analyze student data to inform classroom instruction. Administrators have real-time, district-wide visibility into where students stand. ESGI delivers actionable data, enabling educators to close skill gaps and improve learning outcomes.
